eSimplicity delivers a complete solution

eSimplicity is a suite of products from Facta Vera that provides a secure, cost effective and flexible solution for all your present and future payment, document and process integration and automation needs.

It elegantly bridges the gap between paper-based and electronic payments. eSimplicity allows a gradual conversion, rather than an all or nothing approach that holds you back from reaping the benefits of electronic funds disbursement.

Facta Vera Ltd. is one of North America's leading providers of Total Enterprise Back Office solutions. Our customers achieve quantifiable R.O.I. by streamlining their Payment Management and Document Processing, as well as linking and automating business processes both within and across enterprises through our Enterprise Application Integration tool.

About Facta Vera

At Facta Vera we pride ourselves on quality, flexibility and reliability of all our software packages. Our team of experts take great care in providing the best solutions, tailored to our customers' specific needs. Our software solutions are flexible and fully customizable (rules based) – built from ground up to adapt to your existing business process.

Each customer has demands and needs unique to their business environment and seamless, user-friendly solutions are expected. Facta Vera delivers this, along with the highest level of service and superior technical support. A recent survey indicated Facta Vera has achieved an enviable overall customer satisfaction rating in excess of 95%.
